

RUST EN VREDE

STELLENBOSCH

1694 CLASSIFICATION 2009

Background

Established in 1694, Rust en Vrede is proud to be part of a remarkable three-hundred-year-old wine tradition. Since 1977 the Engelbrecht family has specialized in the exclusive production of red wine, with the focus on Shiraz, Cabernet Sauvignon and Merlot. Proprietor Jean Engelbrecht has worked to establish Rust en Vrede as one of South Africa's premium red wine estates, with full-bodied and complex wines that reflect the uniqueness of the Helderberg terroir.

Variety:	64% Shiraz 36% Cabernet Sauvignon
Appellation:	Estate Wine, Rust en Vrede Stellenbosch
Analysis:	Alcohol – 15.05 vol % pH – 3.54 Acidity – 6.0g/l Res. Sugar – 3.6g/l
Winemaker:	Coenie Snyman

Climate

Mediterranean climate with ± 650 mm rainfall per annum. The Estate is located on the lower lying slopes of the Helderberg between 85m -130m above sea level. Vineyards are mostly situated on north facing slopes with a small portion on north-east and north-west facing slopes to create subtle nuances in aspect. Shielded from South Easterly winds by the Helderberg and Stellenbosch mountains, and from the South Westerly winds by the foothills of the Helderberg, Rust en Vrede is a warmer microcosm in the Helderberg area, which is why we specialize in reds, particularly Shiraz and Cabernet Sauvignon which lend themselves to full bodied wines with powerful structure.

Soil

The soil type is Tukulu and derives from Helderberg granite. It is a mixture of decomposed granite and Table Mountain sandstone - deep and red in colour, showing good water retention which allows for only moderate vine stress during dry years. The mixture of granite and sandstone varies over the property. A higher amount of sandstone allows more drainage which results in weaker growth and more intense wines, while more granite will have higher water retention, resulting in a higher yield and more elegant wines. Soil moisture is carefully monitored and supplemented by drip irrigation.

Vinification

Primary fermentation took 7 days, followed by a 21-day maceration. Pumped over and the cap manually punched down 4 times a day. Malolactic fermentation in barrels. Following fermentation, the Cabernet Sauvignon and Shiraz clones are vinified separately. Matured in 75% French and 25% American oak barrels for 18 months, and then for a further 18 months in the bottle before release.

Tasting Notes

Colour – Deep intense opaque.

Aroma – Coffee and mocha aromas are prevalent with liquorice and honeycomb undertones.

Palate – Black cherry and oak spice flavours are backed up with hints of cedar and cassis. This wine has a very focused approach resulting in good structure and weight on the palate.
